

**+ProActive Approaches CPD Workshops****Why We Need to Understand the Neuroscience**

Date	
Location	
Links to Children's Homes Regulations	Reg 6, 11, 13, 16, 29, 32, 33
Approximate running time	20 minutes input, 20 minutes reflective exercise

**Workshop Overview**

This short workshop is the first of our neuroscience workshops and explains how the brain develops, connects and demonstrates how experiences shape that brain development.

**Learning Outcomes**

1. Understand how the brain develops from conception
2. Define what synaptic pruning is
3. Consider how adverse experiences impact on healthy brain development
4. Explore how this impacts on how children approach new tasks and learning

**Included in session:**

- Slide Presentation including Video
- Overview and Attendance Sheet
